

AKUART SMARTART 60

Acoustic Wall Panel // 60 mm

AKUART SMARTART 60

PRODUCT DESCRIPTION

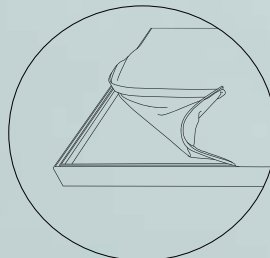

AKUART SmartArt 60 is a sound absorbing picture with a changeable canvas. Acoustic regulation in the highest absorption class available (Class A), is combined with graphic print of extremely high quality. The SmartArt design makes it possible to print sizes up to 3x7 meters in one piece. This solution is particularly ideal when the requirements for acoustic regulation are extra high and therefore requires regulation over a wide frequency range, meanwhile supporting the desired visual expression.

SPECIFICATIONS:

Product:	Framed acoustic image
Acoustic material:	40 mm high-density glass wool
Canvas:	Polyester mixture
Plate type:	Wall panel
Frame:	60 mm aluminum profile
Weight:	5,6 kg pr. m ²
Mounting:	Mounted with wall brackets

FEATURES

The unique SmartArt design makes it possible to detach the canvas from the frame, giving you the option to change and update the print. The canvas can even be machine washed.

ACOUSTIC CORE MATERIAL

Absorption:	Test results according to EN ISO 354 Classification according to EN ISO 11654
Flammability:	Fire retardent. Classification EN ISO 1182
Environment:	M1 label, The Indoor Climate label, CE label, Recommended by the Swedish Asthma and Allergies Association, Nordic Environmental Label, The International Recycling Label.

CANVAS

Flammability:	Fire retardent. Classification B-s1 according to DIN EN 13501-1
Environment:	Tested free from harmful substances according to Eco-Tex 100
Maintenance:	Endures daily dusting, vacuum cleaning and weekly wiping with a wet cloth and can be machine washed on a gentle wash cycle at 40 degrees celcius.

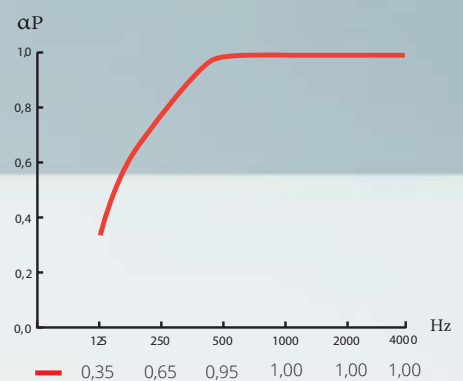

ABSORPTION SA-60

The acoustic efficiency is tested by third party acoustic engineers in a sound engineering laboratory at Danish Technological University. This means that architects, building consultants and designers can count 100% on the acoustic characteristics of an AKUART sound absorbing picture.

Absorption Classification: Class A

Absorbency: $\alpha_w = 0.95$

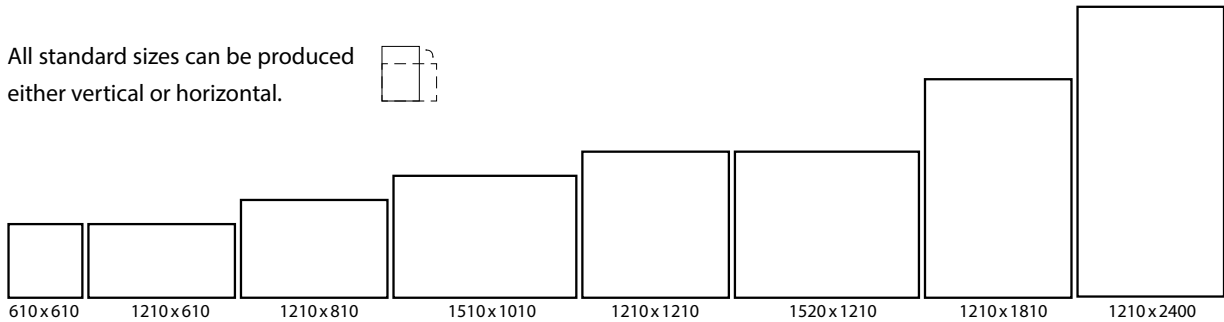

AKUART SMARTART 60 DESIGN OPTIONS

STANDARD FORMATS IN MM (WxHxD)

610x610x36 mm | 1210x610x36 mm | 1210x810x36 mm | 1510x1010x36 mm
1210x1210x36 mm | 1520x1210x36 mm | 1210x1810x36 mm | 1210x2400x36 mm

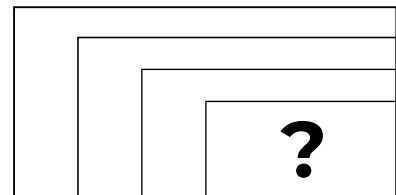

All standard sizes can be produced either vertical or horizontal.

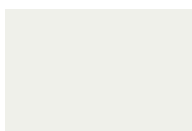

CUSTOM FORMATS (WxHxD)

The clever AKUART design makes it possible to print both individual and oversize formats up to h: 3 x w: 25 meters in one piece.

Custom formats are calculated by standard price per square meter and have no additional costs.

FRAME COLOURS
