THE DESK SCREEN

The Desk Screen is an effective and beautiful shield from the hustle and bustle of everyday office life. As part of the AKUART acoustic screen family the screen shares the same acoustic characteristics and complete freedom to make your own designs as the rest of the AKUART collection. It is as flexible as it is functional and stands out by its adjustable clamp mounts and replaceable printed front and backside textile covers. It is available in 7 standard sizes but can also be ordered on request in custom sizes.
